We are a first class “Systems Integrator & Contractor”, with more than thousands of delivered projects supplying worldwide fully integrated “Security, Telecommunications, IT & Safety Solutions” to Seaports & Airports, Oil & Gas, Industrial, Military, Government and Commercial Customers.

Thanks to our 60 years of experience and our thorough understanding of the environment we deliver solutions that meet and exceed technical and operational requirements.

Leveraging on our large scale program management capabilities, systems engineering and quality assurance processes, as well as on our high caliber personnel, we have a proven capability to deliver innovative and complex fully-integrated solutions. Successfully referenced in Europe, Africa, Middle East & Asia, in the most challenging environments (ice to desert and offshore to onshore) and critical sites (national border to city and sea to air).

Page Europa is 100% owned by GENERAL DYNAMICS and is part of the Information System and Technology (IS&T) division.

Page Europa capabilities are augmented by resources, human and financial, existing across our parent company General Dynamics.

General Dynamics is a world-class market leader in IST (Information Systems & Technologies), Defense (Marine & Land Combat Systems) and Aerospace, with 100,000 employees in more than 100 countries, and a reported sales of $32 billion in 2016.

Aerospace
The Aerospace group has a reputation for superior aircraft design, quality, performance, safety and reliability.

Combat Systems
The Combat Systems group is a global leader in tracked and wheeled military vehicles, weapons systems and munitions.

IS&T
Information Systems and Technology provides technologies, products and services that address a wide range of secure mobile communication systems.

Marine Systems
Marine Systems designs, builds and supports submarines and surface ships for the U.S. Navy.
MARKETS

ENERGY

- Oil & Gas
  - Upstream, Midstream, Downstream
  - Pipelines
  - Offshore Platforms and FPSO
  - Liquefied Natural Gas and Gas To Liquid plants
  - Oil Refining, Chemical and Bio-fuels plants

- Renewable Energy
  - Solar Power plants
  - Wind Farms

- Power & Nuclear Plants

CRITICAL INFRASTRUCTURE

- Airports & Ports
- Large industrial and civil compounds and facilities
- National Borders Security
- Maritime Safety and Coastal Surveillance
- National communication networks
- Homeland and urban security
- Railways and metro

DEFENSE

- NATO programs
- Military Telecommunication Networks
- Fixed and Deployable system
- Shelterised solutions

MAIN CUSTOMERS

OIL & GAS COMPANIES
- SHELL, BP, ENI, ExxonMobil, Saudi Aramco (KSA), Exxon Neftegas (Russia), QP (Qatar), Ras Gas (Qatar), ADCO (UAE), AGIP KCO (Kazakhstan), KPO (Kazakhstan), SONATRACH (Algeria), SABIC (KSA), Petro Rabigh (KSA), NESTE OIL (Finland), PDO (Oman), SCOP (Iraq), PFC (Egypt).

EPC & CONTRACTORS
- AKER SOLUTIONS, BECHTEL, FLUOR, JGC, AMEC, HYUNDAI HH, WorleyParsons, CB&I, KBR/KELLOGG, TECHNIP, SAIPEM/SNAMPROGETTI, PETROFAC.

PORT AND AIRPORT AUTHORITIES
- Abu Dhabi Ports Company (ADPC), Dubai Government Dept. of Civil Aviation (DCA) (UAE), Italy, Saudi Arabia, Oman.

MINISTRIES OF INTERIOR AND DEFENSE
- Turkey, Portugal, Germany, The Netherlands, Greece, UK, Norway, Belgium, UAE, KSA, Egypt, Italy, Morocco, Albania.

NATO AGENCIES
- NC3A, NAMSA, NACMA, SHAPE, APSouth, AFCent, AFNorth.
Experience and Capabilities

**DESIGN & INTEGRATION**

- Experienced in-house and field-proven engineering resources
- Technical domain experts designing and engineering sub-systems and tracking their procurement, development and integration
- Proven project and supply chain management expertise, methodologies and procedures
- Delivering supplier-independent and brand-agnostic integrated solutions in full-compliance with customer and project vendor lists
- Proven relationships with world-class sub-system manufacturers
- In house testing and simulation of the integrated solutions

**CUSTOMER SUPPORT**

- Installation, site testing, commissioning and service experience
- Tailored training
- Preventive and corrective maintenance
- 24/7 operations
- Remote diagnostics and resident maintenance service
- Long-term and SLA customized maintenance contracts

**KNOWLEDGE**

Our successful and field-proven skills in designing, integrating and supplying, large and complex solutions, is supported by our deep in-house knowledge of the following technologies:

- Operation, Command and Control Intelligent systems
- Safety and Security systems
- Cyber Security
- Data and Voice Systems and Infrastructures
- Radio and Satellite Communication networks
- Ports special and security systems ISPS compliant
- Maritime Safety and Security systems
- Screening and Scanning systems
- Industrial Automation and SCADA
- Border Security systems
- Electronic Warfare
- Shelters and Deployable systems
- Auxiliary subsystems

People beyond technology

At the heart of our company are our employees. We rely on their intimate knowledge of customer requirements and a unique blend of skill and innovation to develop and produce the best possible products and services.

The driver that makes our company agile, and ensures our continued performance, is our culture of continuous improvement. This culture enforces a shared commitment to consistently look toward the future and to embrace change. It is a priority at all levels of our company, with every employee engaged in finding new ways to do things faster, better and more cost-effectively, and to push the boundaries of our potential.

- Our expert engineers, technicians, project managers understand how to converge and integrate disparate systems and diverse multi-disciplinary technologies to create joint information and security networks and enterprise-wide architectures that enable our customers to achieve their objectives
- We are experts at modernizing legacy communications infrastructures whilst extending the life of ICT investments
- We are specialized in integrating standards-based and state-of-the-art technologies and commercial off-the-shelf products with existing platforms, systems and networks

We leverage innovative products from the world's leading and emerging technology providers to architect and implement proven ICT solutions for our customers.
Facilities

ROME (Italy): Page Europa’s headquarters are equipped with technical, administrative, operational offices and customer facilities.

MONTEROTONDO (Italy): Systems production, assembly and integration activities.

IZMIR (Turkey): PageTel is a Turkish company fully owned by Page Europa. Systems production, assembly and integration activities. Specialized in manufacturing of advanced shelters and shelterised systems.

ABU DHABI (UAE): Registered Branch Office in UAE, operating available to supply, develop and technically support projects in the region.

MUSCAT (Oman): Page Middle East (PME) LLC is an Omani Joint Venture with the Suhail Bahwan Group, one of the biggest industrial conglomerate in Oman.
